### **\*\*\* Fatal Spike protein of Covid-19 and the related papers, news \*\*\***

Most of the current Covid-19 vaccines focus on 'spike protein' of Covid-19. It means that the vaccine companies 'copied' the Covid-19's spike protein, and then made vaccines. Does your organization know about the complete genome sequences of Covid-19? No. also, all the scientists and doctors in the world still don't know the 100% genome sequences of Covid-19. That fact is very, very important for the fatal Covid-19 vaccines' structural understandings. Lots of scientists and doctors have studied the spreading (infectious manifestations) figures, symptoms and treatments in patients infected Covid-19 in especially 2020.

1. News: 'Axios.com/coronavirus.; Axios. July 23, 2020 Science

Title: 'The confounding range of Covid-19 symptoms', By Alison Snyder, author of Science

: You can refer the summaries of Covid-19 spreading figures and symptoms.

2. paper: 'Lab-Made/ SARS-CoV-2 genealogy through the lens of Gain-of-Function research'

<https://yurideigin.medium.com/lab-made-cov2-genealogy-through-the-lens-of-gain-of-function-research-f96dd7413748>, Yuri Deigin, Apr 22, 2020 :

this paper is really helpful for understanding Covid-19's structures. Covid-19 is completely different with the past SARS-CoVs as you know. In this paper, you can see the bold letter 'A Killer intro' picture. SARS-CoV-2 has the furin-like cleavage site. The introduction of PRRA (bold letter, 'A Killer intro' picture) insert between S1 and S2 of SARS-CoV-2's S protein sticks out like a splinter. This insert **creates** the furin cleavage site S1 is responsible for primary contact with the receptor (RBD/RBM, Receptor Binding Domain/Motif) and S2 is responsible for fusion with the cell membrane and penetration into the cell. The fusion process is started by the fusion peptide marked in yellow (the picture), but in order for it to engage in its dirty deed, someone must cut the S protein at one of the sites marked by diamonds in the diagram above (picture). The virus does not have its own such "cutters", so it relies on various proteases of its victims.

3. One linked paper of the above paper called 'Lab Made? SARS-...';

Title: 'Elevated Plasmin(ogen) as a common risk factor for Covid-19 Susceptibility', published 03 Apr 2020, [doi.org/10.1152/phys.rev.00013.2020](https://doi.org/10.1152/phys.rev.00013.2020) : The author of this paper said that 'Antiproteases targeting plasmin(ogen) may be a promising approach to combat Covid-19'.; It means that if we have antiprotease drug (protease inhibitors), we could end Covid-19 pandemic almost completely, without any deaths or disabled of serious adverse events from the current fatal, poisonous Covid-19 vaccines. That treatment drug is '**IVERMECTIN**'.

4. paper: 'Identification of 3-chymotrypsin like protease(3CLPro) inhibitors as potential anti-SARS-CoV-2 agents', published 20 Jan, 2021, Nature.com, Communications. Biol 4, 93(2021)

<https://doi.org/10.1038/s42003-020-01577-x> : The author of this paper found that 'Ivermectin' is able to inhibit 3 CLPro more than 85% against SARS-CoV-2 among already approved 3987 FDA drugs. The author said that "interestingly, ivermectin was able to inhibit more than 85% (almost completely) of 3 CLPro activity in vitro enzymatic assay with an IC 50 value of **21 uM**. These findings suggest the potential of ivermectin to inhibit the SARS-CoV-2 replication. In support of this, a recent finding suggested that ivermectin(5 uM) inhibited the replication of live SARS -CoV-2 isolated from Australia(V101/2020) in vero/hSLAM cells'.

In the U.S., there are already several treatments recipes which made FLCCC alliance (Front Line Covid-19 Critical Care Alliance). Please visit FLCCC Alliance site(<https://covid19criticalcare.com/>). There are huge amounts of promising treatments or trials against Covid-19 infections all over the world. Ivermectin has a long history of safe drugs for the last more than 30 years. The reason why we must stop vaccination is that spike proteins of Covid-19 alone seriously, absolutely cause damages all the organs of the body. Covid-19 is not natural virus but was created by synthetic engineered to cause harm as the bioweapons. The unknown genome sequences of covid-19(1-3%?) include HIV and more viruses. Since 9/11 terror's manipulation, the U.S. hidden, same organization(government)'s those attackers have manifested their political powerful authorities in the world. So I assume that in each country's government, there may be some connected those attackers' members or allies, for the manipulations for their own agency's or

individual advantages. Those network professionals have manipulated lots of things through their connected politicians, health authorities, scientists, doctors and some companies, journalists.

### \*\*\* Fatal Spike Proteins of Covid-19 and Covid-19 Vaccines \*\*\*

1. **Dr. J Patrick Whelan**, a pediatric rheumatologist submitted to the U.S. FDA and VRBPAC against mRNA vaccine(BNT162b2) in advance of the Dec 10 meeting for review.

Title: 'Comment from J Patrick Whelan MD PhD, posted by the FDA on Dec 8, 2020, Regulations.gov'(you can search this on Google): Please search this submission and read in detail. There are several linked papers, which studied spike protein alone cause damages to the all the organs.

2. News: 'Could spike protein in Moderna, Pfizer Vaccines cause blood clots, brain inflammation and Heart Attacks?', the Defender, 02/10/21(childrenshealthdefense.org), By Lyn Redwood, RN. MSN:

Dr. Whelan was concerned the potential to cause microvascular injury(inflammation and small blood clots called microthrombi) to the brain, heart, liver, and kidneys. SARS-CoV-2 infection is wide-spread damage occurring in numerous organs beyond the lungs. The world clinicians have seen evidence that suggests the virus may cause heart inflammation, acute kidney disease, neurological malfunction, blood clots, intestinal damage and liver problems. (Covid-19 vaccine's spike protein alone cause exactly the same damages as the SARS-CoV-2 infections) according to Whelan's letter to FDA, the 'Pfizer/BioN Tech vaccine is composed of an mRNA that produce a membrane-anchored full-length spike protein.

3. linked paper of recent analysis: 'Microvascular Injury in the brains of patients with Covid-19', The New England Journal of Medicine, Feb 4, 2021 **Doi:10.156/NEJMc2033369**:

NINDS documented microvascular injury but no evidence of virus in the brains of patients died from Covid-19.

**\*A landmark** study('The S1 protein of SARS-CoV-2 crosses the blood-brain barrier in mice', Nature Neuroscience, published 16 Dec, 2020: Nature Neuroscience 24,368-378(2021), cite this article) in Nature Neuroscience, published a few days after Whelan's letter, found that the commercially obtained Covid-19 spike protein(S1) injected into mice readily crossed the blood-brain barrier, was found in all 11 brain regions examined and entered the parenchymal brain space(the functional tissue in the brain).

\*my views: The reason why the health authorities have to stop vaccinating right now is that vaccine's fatal spike proteins are 'INJECTED' through intramuscular like lab's mice, so damages occur not only in all the organs such as brain, liver, heart, lung, kidneys, and skins inside of the body, but also directly '**BLOOD**'. The fatal spike protein's INJECTION is completely different with the natural infections of Covid-19. That means that there could be nothing more normal immune functions of organs left from the flow of blood binded the fatal spike proteins of Covid-19 vaccines. So sudden deaths absolutely are possible within a few hours or days. Please pay in detail attention to about the facts that the Covid-19 vaccine is not natural infection of part of body's surface, but direct 'injection' through intramuscular, which cause infections all the organs directly inside the body. You can understand about that 'execution' is done through poisonous 'INJECTION' in order to kill directly with the flow of blood mixed the injected poison.

For now, all the health authorities of the countries force the good people to be INJECTED the fatal, poisonous spike proteins of vaccines directly inside their bodies.

**There** were no disabled people from the natural Covid-19 infection, or sudden deaths, however, there are lots, lots of not only sudden deaths but also disabled people from the vaccinations. Because the method of infections of Covid-19 between the natural infections and the fatal vaccine INJECTION is completely different, similar to lab's dead mice through INJECTION.

According to lots of studies, there are already evidence that spike protein alone have the capacity to cause widespread injury throughout the body, without any viral mRNA. People could avoid infecting Covid-19 through washing their hands, or wearing masks, no direct touching anything. Also there are amazing 'ivermectin' and other treatments against Covid-19. However, people can't defend the fatal vaccine's spike protein infections or damages to the organs from the health authorities' forcing.

In another investigation(linked paper: 'Endothelial cell damage is the central part of Covid-19 and a mouse model induced by injection of the S1 subunit of the spike protein', ScienceDirect.com Volume 51, Apr. 2021,151682. **Doi:10.1016/j.anndiagpath.2020.151682**), researchers studying brain tissues from 13 fatal Covid-19 cases found pseudovirions (spike, envelope and membrane proteins without viral RNA) present in the endothelia of microvessels of all 13 brains. They concluded that ACE2+endothelial damage is a central part of SARS-CoV-2 pathology and may be induced by the spike protein alone.

4. paper: 'The SARS-CoV-2 spike protein alters barriers function in 2D static and 3D microfluidic in-vitro models of the human blood-brain barrier. ScienceDirect.com

**doi.org/10.1016/j.nbc.2020.105131** Dec 2020 :

**Research** has found SARS-CoV-2 spike protein alone to be a potent inductor of endothelial dysfunction. The spike protein alone-which the mRNA vaccines instruct the body to make- has been implicated as a key cause of injury and deaths in Covid-19 infections.

Whelan wrote, "the potential to cause microvascular injury to the brain, heart, liver, and kidney.. were not assessed in the safety trials.

\*My views: All Covid-19 vaccines do not prevent Covid-19 infection, so the vaccine company made the word 'symptomatic efficacy', instead of preventing infection efficacy. Dr. Fauci of the U.S. also made sure these facts in 2020 about that Covid-19 do not prevent Covid-19 infections, maybe on CNN.

For Pfizer's trials, the participants took medications within the first 7 days of 1<sup>st</sup> dose of vaccine, because the symptoms were maybe a lot, those medications absolutely would impact the symptomatic efficacy's calculation, but FDA ignored those facts. There was much more ignorance of FDA. All vaccine trials were unblinded, and Pfizer's suspected Covid-19 3,410 participants were excluded from both the symptomatic efficacy and the actual positive calculations. FDA also removed these exclusions of suspected Covid-19 3,410 numbers on the all the public journals, except only FDA reviews documents, according to following analysis of Peter Doshi.

5. NEWS: 'Peter Doshi: Pfizer and Moderna's "95% effective" vaccines -we need more details and the raw data', Jan 4, 2021, the Defender(dhildrenshealthdefense.org):

BMJ's senior associate, Peter Doshi said that mRNA vaccine's companies' trials used the wrong end-point. In **Doshi's** analysis, if Pfizer's trial counted those suspected Covid-19 3,410 participants, the efficacy would have been 19% or 29%.

6. 'Characterization of spike glycoprotein of SARS-CoV-2 on virus entry and its immune cross-reactivity with SARS-CoV', Nature Communications: Nat Commun. 2020;11:1620, published 2020 Mar 27.

**Doi:10.1038/s41467-020-15562-9 :**

You can refer spike protein's structure and characters with this study for your understandings. In this study, the author said that "Trypsin could also activate SARS-CoV-2 S protein efficiently and induce large syncytium formation. To our surprise, we found that even without trypsin, SARS-CoV-2 S protein could trigger syncytium formation on 293/hACE2 cells, a phenomena similar to what was observed in MHV S protein in certain aspect."

\*My views: Please note importantly the word 'MHV S protein' in this study. SARS-CoV-2 is not natural virus, but made by using synthetic engineered tools in Wuhan Lab. Also the terrorists inserted HIV-1 and more deadly virus in the spike protein of Covid-19. So, for now, the current Covid-19 vaccines were copied spike proteins of Covid-19. I already mentioned that spike protein alone cause damages directly all the organs without viral RNA, through several papers and Dr. Whelan's submission letter to FDA. So this fact is really true with lots of evident studies.

Unfortunately, and surprisingly, SARS-CoV-2 would not simple bio-safety level 3 virus, which WHO said. The unknown genome sequences of Covid-19(spike proteins) include 100% HIV-1 and more deadly viruses such as Ebola and parasite like viruses. Covid-19 vaccines are all maybe deadly bio-**safety level 4** virus (spike proteins). Also intramuscular injection of fatal spike protein including HIV is maybe similar to injection for the execution, I need to say.

**\*\*\* HIV Insertion in the Covid-19's spike protein and more \*\*\***

1. (Breaking) Nobel prize winning scientist: coronavirus was leaked from a Chinese laboratory and has HIV HNA(Watch), April 19, 2020:

**<https://web.archive.org/web/20210525201145/https://rairfoundation.com/breaking-nobel-prize-winning-scientist-coronavirus-was-leaked-from-a-chinese-laboratory-and-has-hiv-dna-watch/>**

French virologist and Nobel Prize winner Luc Montagnier said that SARS-CoV-2 was manufactured and leaked from a Wuhan lab in China with HIV(AIDS)DNA. He also told us that a very, very, very famous Indian research group had published the same thing and they were forced to retract it.

\*My views: The U.S. government's hidden, same organization's attackers have had the deep connections the most authorities in the world including EU and WHO. So they easily manipulated Covid-19 pandemic and have tremendously covered the real truths of Covid-19 and lots lots of deaths, serious adverse events from the vaccinations.

2. paper: 'Uncanny similarity of unique inserts in the 2019-nCoV spike protein to HIV-1 gp 120 and Gag', bioRxiv(Jan 30,2020) : **[doi.org/10.1101/2020.01.30.927871](https://doi.org/10.1101/2020.01.30.927871)** :

-Insertions share similarity to HIV:-

Unexpectedly all the insertions got aligned with Human immunodeficiency Virus (HIV-1). Further analysis revealed that aligned sequences of HIV-1 with 2019-nCoV were derived from surface **glycoprotein** gp120(amino acid sequence position:404-409, 462-467, 136-150) and from Gag protein (366-384 amino acid) (Table 1). Gag protein of HIV is involved in host membrane binding, packaging of the virus and for the formation of virus-like particles. Gp120 plays crucial role in recognizing the host cell by binding to the primary receptor CD4. This binding induces structural rearrangement in Gp120, creating a high affinity binding site for a chemokine co-receptor like CXCR4 and/or CCR5'.

3. Dr. Lynora Saxinger, University of Alberta, infectious disease specialist, said on CBC News in 2020 that she found usually **'arc'** on Covid-19 patients. 'Arc' is related to 'HIV'.

4. **News:** 'Inventor of mRNA Technology: Vaccine causes lipid nanoparticles to accumulate in 'High Concentrations' in Ovaries', the Defender(childrenshealthdefense.org) 06/17/21 :

Dr. Robert Malone, creator of mRNA vaccine technology said the Covid-19 vaccine lipid nanoparticles- which tell the body to produce the spike protein-leave the injection site and accumulate in organs and tissues. According to the data(Pfizer's report to the Japanese government), lipid nanoparticles were found in the whole blood circulating throughout the body within four hours, and then settled in large concentrations in the ovaries, bone marrow and lymph nodes.

\*My views: This may relate to the HIV protein of the Covid-19 mRNA vaccine.

5. \*News: 'Australia terminates University of Queensland vaccine deal with CSL after false positive for HIV', the Guardian, Dec 10. 2020:

Queensland University the molecular clamp technology including two fragments of a protein found in HIV for trial. And then the researchers did the subsequent HIV tests. But unexpectedly the HIV **tests were** 'false positives'. So, Australia terminated University of Queensland vaccine deal.

\*My views: I assume that the facts about 'HIV' false positives in the trial participants could mean the evidence of 'HIV inserting' inside of Covid-19 spike protein. It actually would be 'HIV true positive'. For now, nobody imagines 'HIV insertions' in the spike protein of SARS-CoV-2. So University of Queensland's scientists concluded 'the real HIV positive' as the 'HIV false positive'.

-IMPORTANT: Right now, your organization has to test HIV to the both 'Covid-19' itself and 'Covid-19 vaccines'. Also, your organization should try to test several times in the several different places. Because the powerful network professional attackers always prohibit or manipulate through the deep connected authorities including health or network or politicians.

-IMPORTANT: And then, although even your organization can't find the real HIV genome, your organization should stop vaccinations right now. The possibility of another virus, which are unknown genome sequences, would be more deadly viruses like bio-safety level 4 viruses. Because China upgraded 'Wuhan Virology of Institute' as the Level 4 lab from the biosafety level3 lab in 2015(Wikipedia). And also China made one more bio-safety level 4 lab in 2018.

\*News: 'Canadian scientist sent deadly viruses to Wuhan Lab months before RCMP asked to investigate', CBC News, June 14, 2020:

Dr. Xiangguo Qiu sent **'Ebola'** and other viruses to Beijing on March 31, 2019. There are more than 10 relating CBC News.

### \*\*\* Postmortem study of Vaccinated Person \*\*\*

1. 'First case of postmortem study in a patient vaccinated against SARS-CoV-2', International Journal of Infectious Diseases: Int J Infect Dis. 2021 Jun;107:172-175, published Apr 16.2021

**Doi:10.1016/j.ijid.2021.04.053:**

A previously symptomless 86-year-old man received the first dose **of the BNT162b2** vaccine. This patient had no symptom from the vaccination, and then one day collapsed and died in the hospital two days after infecting Covid-19 through another patient.

Spike protein (S1) antigen-binding showed significant levels of immunoglobulin Ig(G) (My views: like 'autoimmune antibodies'), nucleocapsid IgG/IgM was not elicited.

Blood work did not show an IgM titer. We did not find any typical signs of diffuse alveolar damage in the lungs, but we identified extensive acute bronchopneumonia possibly of bacterial origin. We concluded that the patient died from bronchopneumonia and acute renal failure.

In summary, sterile immunity is not adequately developed.

\*My views: I assume that the current Covid-19 vaccines directly cause damages to the organs like bacteria or HIV. Your organization should ask the health authority to use 'Ivermectin' as the Covid-19 treatment drug, and also may need to treat the vaccinated people as well with 'Ivermectin', I assume.

-Now, in urgent situations, so I can't write more things, I am going to let you know a little bit more shortly.

### \*\*\* Autoimmunity \*\*\*

1. paper: 'Autoimmunity to Annexin A2 predicts mortality among hospitalized Covid-19 patients', European Respiratory journal: **doi:10.1183/13993003.00918-2021** Accepted June 24, 2021 :

\*My views; I assume that the most vaccinated people could experience the auto-immune antibody process like high level of immunoglobulin Ig(G) against spike protein. Some people feel some symptoms through vaccinations. Others have mild or asymptomatic. However, all the vaccinated people have to be forced the auto-immune antibody process, because spike proteins of Covid-19 attack the vaccinated people's bodies. It means that 'antibodies' of the vaccinated people could be the 'auto-immune antibodies' against spike proteins of the vaccines.

-Please, your organization must ask the health authority to stop the current Covid-19 vaccinations right now. Covid-19 vaccines are poisons. Covid-19 vaccines kill people, make people disabled forever. All the vaccines' efficacy are manipulated.

Also, right after stopping vaccinations, the health authority allow 'Ivermectin' as the treatments of both Covid-19 prevention and vaccinated people's treatment.

**\*\*\*Another Fatal spike proteins inserted in Covid-19's spike protein, such as the parasite *Plasmodium falciparum* and Ebola and more viruses\*\*\***

1. Luc Montagnier, who received the 2008 Nobel Prize in medicine for his discovery of HIV (inside AIDS), said that SARS-CoV-2(Covid\_19) were added sequences very similar to HIV-1 and the parasite *Plasmodium falciparum*, which is responsible of malaria. After published the paper regarding the exact locations and the kind of HIV genome sequences, 'Uncanny similarity of unique inserts in the 2019-nCoV spike protein to HIV-1 gp120 and Gag', a few papers with several scientists purposely (maybe) published with opposite theories, and then FaceBook made Nobel prize winner's scientific findings as the conspiracy. So, most people including authorities could not know the real facts of Covid-19. As far as I know, Luc Montagnier discovered HIV in the AIDS. Nobody discovered HIV inside AIDS, so I assume that Luc Montagnier received the 2008 Nobel Prize in medicine for his discovery of HIV.

2. <https://tapnewswire.com/2021/07/the-clotshot-62-of-vaccinated-have-blood-clots/>, July 2021

Title: 'The 'clotshot' -62% of vaccinated have blood clots', 16 Jul 2021:

Dr. Charles Hoffe is the brave doctor who has been practicing medicine for 28 years in the small, rural town of Lytton in BC. After Dr. Hoffe had administered about 900 doses of the Moderna experimental mRNA Covid-19 injections, he sounded the alarm over the severe reactions, and then he got a gag order, unfortunately. So like Nobel Prize winner's finding of HIV-1 inside Covid-19's spike proteins, again the parasite-like spike proteins inserted in Covid-19, which is the real fact, **has been** covered up to most of people including the good authorities. Dr. Hoffe was relieved from hospital duty and lost half of his income.

Dr. Hoffe states that the blood clots that are being reported in the corporate media as being "rare" are anything but rare, based on his own testing of his own patients who had recently received one of the shots. "The blood clots we hear about which the media claim are very rare are the big blood clots which are the ones that cause strokes and show up on CT scans, MRI, etc. the clots I'm talking about are microscopic and too small to find on any scan. They can thus only be detected using the D-dimer test."

Using this test with his own patients, Dr. Hoffe claims that he has found evidence of small blood clots in 62% of his patients who have been injected with an mRNA shot. He stated that these people are now permanently disabled, and they will no longer “be able to do what they used to do”.

The most alarming part of this is that there are some parts of the body like the brain, spinal cord, heart and lungs which cannot re-generate. When those tissues are damaged by blood clots they are permanently damaged.

His warning is very dire: “There shots are causing huge damage and the worst is yet to come.”

\*My views: Covid-19 is not natural virus absolutely, but was created by the synthetic engineered tools in the lab. So Covid-19 is very fatal HIV-1, the parasite-like malaria (I assume this virus would be Ebola), Ebola and more viruses’ spike protein are inserted in the Covid-19. Covid-19 vaccines copied those fatal spike **proteins**.

3. ‘COVID Heart Autopsies point more to clot damages than myocarditis’, MEDPAGE TODAY- Results bolster case for anticoagulation in hospitalized patients, By Crystal Pheud, Oct 15, 2020:

<https://www.medpagetoday.com/meetingcoverage/tct/89143> :

Autopsies on 49 people who died of Covid-19

Renu Virmani, MD, of CVPPath Institute in Gaithersburg, Maryland, said, “We did not expect this”. “That’s what led us to discover that there’s more than just troponin I rise but really more to do with the fact that there is true necrosis and not so much myocarditis”.

Ischemic EKG changes had been present in more of the myocardial necrosis cases (43% vs 8% without necrosis,  $P=0.03$ ) and 44% of those with microthrombi. Notably, though, the virus was detected in the heart for only nine patients(22.5%), with no difference by myocardial necrosis or microthrombi presence.

“It seems to be unlikely that the direct viral invasion of the heart is playing a major role in making myocardial necrosis and microthrombi”, Guagliumi told the virtual audience.

\*My views: The above autopsies’ finding would be similar to Dr, Hoffe’s finding small blood clots of 62% patients from the vaccinations through D-dimer test. It means that the current adverse events of myocarditis would not be just ‘myocarditis’, but serious ‘myocarditis necrosis’. Depending on the medical devices, the doctors can find the real serious facts of the fatal Covid-19 vaccines’ poisons. Also some bad authorities sometimes may block something.

4. **News:** ‘Federal government’s move to take Speaker to court raises questions that divide experts’, CBC News, July 02, 2021. By Peter Zimonjic :

I read this news recently. The fact is that ‘Canadian scientist sent deadly viruses to Wuhan lab months before RCMP asked to investigate’, (CBC News June 14, 2020) is true. following viruses were sent to Wuhan lab by DR. Xiangguo Qiu in March 2019. All the viruses sent to Beijing would be the deadly bio-safety level 4 viruses.

|                                                            |
|------------------------------------------------------------|
| -The list includes two virals each of 15 strains of virus: |
|------------------------------------------------------------|

Ebola Makona (three different varieties)/ Mayinga /Kikwit /Ivory Coast / Bundibugyo /  
Sudan Boniface / Sudan Gulu / MA-Ebov / GP-Ebov / GP-Sudan / Hendra / Nipah Malaysia /  
Nipah Bangladesh

According to the politics news, 'Federal government's move ...', the former clerks mentioned about 'Five Eyes group' and intelligence regarding this disputable document. I just assume or doubt that 'Five Eyes group' might implicate the things of deadly inserted other viruses inside of Covid-19. Or they might know something, but we don't know about that. If not, or in other cases, all the people including authorities have to save the ordinary people's lives from the fatal, deadly HIV-1, parasites, or Ebola inserted in the Covid-19 vaccines.

Right now, the government and the health authorities of the countries in the world must stop vaccinations of Covid-19. And then maybe all the vaccinated people should be treated as soon as possible with **Ivermectin** after checking some quick review of safety. And 'Ivermectin' has the more than 30 years of safety history. FLCCC Alliance already has 'the Ivermectin recipe' including for the vaccinated people.

### **\*\*\* Herd Immunities, Infectious cases(positive) or breakthroughs from the vaccinations \*\*\***

I already mentioned about my assumptions through both reading lots of news and the victim's experiences', regarding 'herd immunity manipulations' with using the powerful network and AI (artificial intelligence), those attackers can do everything. Please note and focus on the destruction of people's natural immune system from the deadly Covid-19's spike proteins' INJECTION (vaccination) through intramuscular.

1. 'Evidence from around the world suggests COVID Vaccines are leading to more Deaths and Infections: French Medical Doctor', June 2021:

<https://tapnewswire.com/2021/06/evidence-from-around-the-world-suggests-covid-vaccines-are-leading-to-more-deaths-and-infections-french-medical-doctor/>

you can refer this site about the real truths of infections and deaths from the vaccinations. If the most of countries stop vaccinating right now, and then start using 'Ivermectin' treatment against infections of Covid-19 or for the recovery of the vaccinated people, we could finish the Covid-19 pandemic soon. HOWEVER, the countries keep relying on the current, fatal Covid-19 vaccines, the people in the world would live not only with the disastrous Covid-19 pandemic now and in the future, but also with the disabled bodies, microchipped bodies, and abnormal bodies until they die.

Those attackers never give up their own advantages and injected, wireless chips in the Covid-19 vaccines. Only good authorities could save people's lives.

### **\*\*\* Covid-19 Vaccines' antibodies, Delta variant, and vaccines' efficacy \*\*\***

I am sure and it is evident that Covid-19 was created as the bio-weapon in the Wuhan lab purposely. Those attackers are enough powerful to be able to manipulate 'science itself'. So it needs to be made some boundaries between 'the Science itself' and 'the manipulations of Covid-19 vaccines'. Otherwise the ordinary people can't know 'the real science of Covid-19 and Covid-19 vaccines. For example, this kind of manipulations could apply to 'the News'. The News' main factors are maybe 'facts' and 'peoples' opinions. If the bad people including authorities try to manipulate, they could do through intended people's opinions. So in the current pandemic, we need to filter some bad manipulations. I assume that those attackers not only ignore 'the science', but also evil-use the science.

The current Covid-19 vaccines were made to focus on both 'symptomatic efficacy' and 'antibodies'. According to several scientific experts and FDA, Covid-19 vaccines can't prevent infections from the vaccinations. So the companies used the word 'symptomatic efficacy'. Also according to the several studies, Covid-19 vaccines' antibodies could be not the good antibodies, but the bad antibodies. The bad antibodies mean 'auto immunity antibodies', which cause damage organs and increase mortality. This may be true considerably.

\*My views: I assume that this paper might be prepared for encourage medias reported this paper's results regarding vaccines' antibody efficacy. However, I assume that this paper could show about the autoimmunity antibodies from the vaccinations. Covid-19 vaccines were copied the fatal spike proteins of Covid-19 including surely HIV-1 and other parasite-like biosafety level 4 viruses and more. I assume that mainly HIV-1 inserted in the spike proteins of vaccines **cause** 'autoimmunity antibodies' in the generation of Germinal Center. I don't have enough knowledges about DNA, but I assume that in the worst scenario the Covid-19 vaccines (especially mRNA and Western and more vaccines) could change human beings' DNA especially to the next generation. Covid-19's spike protein also includes other fatal

spike proteins. For now, we know surely HIV-1, and the possibility of Ebola or parasite-like other viruses or bacteria. Only the group which made this deadly Covid-19 knows the entire ingredients of Covid-19.

We also should focus on 'the neutralizations' of Covid-19 vaccines. I don't have enough knowledges about 'parasite-like viruses or bacterias', but I assume that neutralizing antibody of Covid-19 vaccines might mean not the good neutralizing antibody, but the necrosis-like status by the parasite-like germs. We don't know yet about that. But there are the possibilities. I have read some adverse events from the Covid-19 vaccines' AEs from the lots lots of people's cases. People died very strangely, some died during sleep, some died from the sudden collapses. I strongly assume that there surely have been some necrosis process inside of the body of the vaccinated people. It would be right.

RIGHT NOW, all the authorities must declare 'MORATORIUM' of Covid-19 vaccinations, and start to treat the vaccinated people's damaged bodies as soon as possible. We have now some treatments such as 'IVERMECTIN' and others.

**August 2021** month is important to those attackers. Because they pursue the full license of the Covid-19 vaccines. The full license of vaccines force all the people get vaccinated by the federal law(US) according to 'the Defender' site.

-CDC MMWR (Morbidity and Mortality Weekly Report), July 30,2021/70:

CDC changed mask guidance from the Massachusetts breakthrough cases. I assume that Delta was made differently than the past Covid-19, maybe purposely. Delta variant is the intended, purposed tool for forcing vaccinations and full license, it may be true. delta increase transmissibility, decrease fatality. However, those attackers kill the unvaccinated people with the Delta through controlling the amounts of Covid-19 fatally. So, in June 2021 data in Maryland of the U.S., the director of Maryland said that "100% of Covid-19 deaths in Maryland occurred in people who were unvaccinated" (92 people died).

\*News: 'Maryland says 100% of Covid-19 deaths last month were among unvaccinated', Fox News, July 7, 2021: \*My views: Those attackers can kill this kind of thing through Covid-19 bio-weapon, although even Delta variant decrease mortality.

-My focus is not the unvaccinated people, but the vaccinated people's infections for now. Those attackers don't spread purposely Covid-19 to the vaccinated people, because for the injectable chips, full license, and lots lots of vaccines sale money and more. So CDC's Massachusetts' breakthroughs cases of the vaccinated people show us the real adverse events of Covid-19 vaccines, and dysfunctional immune system of the vaccinated people. The vaccinated people soon might not be able to fight against most of viruses and others. This is 'VERY IMPORTANT'.

**Now is not** the time to think complicatedly about the fatal Covid-19 vaccines.

Now is the time to decide to stop vaccinating of Covid-19 simply, right now. The main MEDIAS and AUTHORITIES must do and reveal the fatal HIV-1 inserted in the Covid-19's spike proteins. Covid-19 vaccines include HIV-1 and other much more fatal viruses. If needed more evidence for stopping vaccinations of Covid-19, then you have to reveal other factors such as already injected microchips inside of Covid-19 vaccines, 9/11 terror, and all the past, purposed pandemics for the last twenty years.

The IMPORTANT thing is that the moratorium of the fatal Covid-19 vaccinations and start of treatment for the vaccinated people should be done right now.

### **\*\*\* Wrong Judgements about infected people's mild or no symptoms after vaccinations: 'BLOOD', 'PARASITES' \*\*\***

For now, most of health authorities of the countries in the world emphasize on mild or no symptoms regarding breakthroughs after vaccinations. They say this means that the current Covid-19 vaccines have symptomatic efficacy. However, from my views, those judgements might be wrong, although we're not completely sure.

-First, please focus on the 100% sure thing (real truths) about Covid-19 and its vaccines.

1. Covid-19 is not natural viruses, but created in the lab by bio-synthetic engineered tools. (100% sure thing)

2. Covid-19's spike proteins contain HIV-1 inserted on Covid-19 (100% sure thing)

3. All the scientists and doctors still don't know the complete genome sequences of Covid-19 until now. (100% sure thing)

4. According to Luc Montagnier (Nobel Prize winner, he discovered HIV IN aids), he described SARS-CoV-2 as a man-made "Frankenstein virus" combining various type of viruses. SARS-CoV-2 were added sequences of HIV-1 ad similar to the parasite 'Plasmodium falciparum', which is responsible for malaria: SARS-CoV-2 contain similar to some parasites including maybe Ebola (100% sure thing)

**5. All the** countries have experienced some kinds of storm-like increase of Covid-19 positive cases and hospitalization within 1-2 months or a little bit more periods, right after starting vaccinations. (100% sure thing)

For example, South Korea experience this situation, and maybe Australia and New Zealand do as well now. Following study is evidence by Dr. Gerard Delepine and Dr. Nicole Delepine.

\*study: 'Evidence from around the world suggest COVID Vaccines are leading to more Deaths and Infections', French Medical Doctor, June 2021

6. Regardless of the kind of infected people (vaccinated or unvaccinated), the current Delta variant is the completely different variant with the past Covid-19 variants. It means that Delta increases transmission, but decrease mortality than the past fatal Covid-19, like similar to flu. (100% sure thing)

\*My views about Delta: Those attackers made Delta purposely, focusing on Full license, and projected to spread after starting the mass vaccinations. However, those attackers can kill the unvaccinated people

through spreading strongly. Please note about No6, Delta is different variant with the past variants, regarding the structures and symptoms.

7. The most of the current Covid-19 vaccines, such as Pfizer, Moderna, Janssen, or Astrazeneca don't prevent Covid-19 infections, so named as 'symptomatic efficacy'. (100% sure thing):

\*My views: I assume that Covid-19 vaccines don't prevent the infections of Covid-19, but make Covid-19 infections, maybe, but it might be true. this may relate to PCR test, which is basically DNA test.(PCR test news: ( <https://stateofthenation.co/?p=71660> )

\*\*My views: Wrong judgements about infected people's mild or no symptoms after vaccinations:

1) According to Dr. Patrick Whelan, who submitted the public letter to FDA, emphasizing on the fatal spike proteins of Covid-19, there is the following linked study. :

\*paper: 'Outcomes of cardiovascular magnetic resonance imaging in patients recently recovered from coronavirus disease 2019', [doi:10.1001/jamacardio.2020.3557](https://doi.org/10.1001/jamacardio.2020.3557)

In this study, recovered people from mild or asymptomatic infected Covid-19 at home, not hospitalized, also have similar to the hospitalized infected people, regarding the heart inflammations, maybe more than 60% of recovered people at home. I assume that this is the important factors, relating to the infected people, whose symptoms mild or no symptoms after vaccinations.

**Without** any detailed tests of the organs after vaccinations, there are no meanings and differences about the damaged organs between the mild or no symptoms and serious symptoms, after both just vaccinations and infections(breakthroughs). It means that we can't the correct judgement from the just symptoms of infected people without any detailed tests of the organs. Because the real truths are that Covid-19 was created as the bio-weapon, and the current Covid-19 vaccines copied the fatal spike proteins, such as HIV-1 and more fatal parasite-like germs, which cause damages to 'BLOOD'. I don't have enough knowledges about parasites, but most scientists and health authorities must pay in detail attention to the how parasite-like germs responses to the organs, antibodies, and the process of infections including importantly 'BLOOD'. I assume that there would be 'the KEY SOLUTIONS' of Covid-19 vaccines' fatal, potential, killing adverse events.

I assume that depending on the people's immune systems, the adverse events from the Covid-19 vaccinations show just differently. However, maybe all vaccinated people definitely have damages of organs after vaccinations, regardless of the any symptoms. So only time periods show differently to reach the dead- boundaries or the fatal impacts on the organs apparently, depending on the people's immune systems.

**2) I assume** that the parasite-like viruses or bacteria inserted in the Covid-19's spike proteins could attack not only just organs' tissues or other things, but also **'blood'**. I don't have enough knowledges about 'blood', but the parasite-like germs inserted in the Covid-19 vaccines' spike proteins definitely attack blood directly. It may be true. you can refer to the following study.

\*paper: 'Reinfection with SARS-CoV-2 and Failure of Humoral Immunity: a case report' medRxiv: [doi:10.1101/2020.09.22.20192443](https://doi.org/10.1101/2020.09.22.20192443) :

In this study, Table1: The reinfected person's blood has the rapid deduction of the materials of blood, such as total white blood count(cells/uL:16,200->6,700), absolute neutrophil count(cells/uL:12,960->2,010), absolute lymphocyte count(cells/uL:1,600->600), and platelet count(cells/uL:290.000->240,000), and more.

According to Indian researcher group's finding HIV-1 gp120 and Gag inserted in SARS-CoV-2's spike proteins(\*paper: 'Uncanny similarity of unique inserts in the 2019-nCoV spike protein to HIV-1 gp120 and Gag'), Gp120 plays crucial role in recognizing the host cell by binding to the primary receptor CD4 in T cell. I am sure that Covid-19 was created completely as the fatal bioweapon. So especially the Covid-19 vaccines' fatal spike proteins can cause the deadly, fast damages to the organs and 'blood' through functionally attacking even 'blood' directly by HIV-1 and 'parasites' **and more** deadly viruses.

All vaccinated people could live until their blood left inside of the body, depending on on their immune response. At this moment, the parasite-like germs and HIV01 and more viruses inserted in the covid-19 vaccines' spike proteins kill or eat the blood of the vaccinated people, without any realization of each vaccinated people. So, somebody suddenly dies in his/her sleep at home.

(ex:1. News: 'Dusty Hill, AA Top bassist, dead at 72', Fox News, July 28,2021:Hill died in his sleep at his home in Texas. No cause of death was given.

ex 2:'Dennis Thomas, 'Kool and the Gang' co-founder, dead at 70', Fox News, Aug 8, 2021: Thomas passed away in his sleep, Saturday)

somebody suddenly collapses and dies. I assume that those dead people from the vaccinations might have no more enough blood left for their bodies alive. We don't know how fast the parasite-like germs inserted in Covid-19 vaccines' spike proteins kill or eat up completely the human beings blood, without any detailed tests. Right now, the health authorities must start treating all the vaccinated people before the parasite-like germs kill or eat up all blood of the vaccinated people with using 'IVERMECTIN'.

Also your agency should inform other countries, in which using Covid-19 vaccines.

I assume that all antibodies relating to Covid-19 vaccines absolutely would be 'the autoimmune antibodies', which cause mortality. Those antibodies are not the neutralizing antibodies, it may be true.

Thank you.
